Curriculum and More

Organised and manageable for any STEM or CS teacher!

With no student accounts or installation required, student learning submissions make collecting code, progress and activity easy. Start with Blocks then use the patented Switch coding to easily transition to Python coding.

Curriculum Linked Resources

All curricular resources are aligned to educational standards. From STEMLab Units, your online teacher's manual to activities designed for independent student use – VEX offers the support you need to teach with confidence.

Free Curriculum Included

Lessons cover a range of subject areas making cross-curricular STEM and coding connections easy and fun! Bring your STEM or Makerspace to life or integrate into core subjects like Computing or Engineering - the VEX curriculum takes the guesswork out of implementation.
